

WARRANTY

1. Copperfit Industries Inc. will replace, free of charge, any of its products if found to be defective in material, workmanship, or performance within one year from the date of the purchase. This warranty shall be effective only if the unit: (1) was installed in accordance with supplied instruction and existing plumbing codes, (2) has not been subjected to abuse and (3) was at all times used in a manner consistent with its intended use.
2. For any defective products, customer has to contact Copperfit or its local sales representative to report the defective within 3 days of occurrence. Copperfit will decide for inspection of the reported issue, and to replace through the original distributor from whom the product was purchased, if the products were determined to have manufacturing defect.
3. Copperfit makes no other warranties, implied or expressed and will not be responsible for any damage or loss due to use of the defective products, or for other consequential or incidental damages. Replacement or credit not to exceed the purchase price of the item, pursuant to this warranty constitutes the sole remedy for any item found to be functionally defective.
4. Copperfit encourages customer to inspect carefully the shipment if there is any sign of damage at the time of receiving the products. Customer has the responsibility to inspect the condition of any shipment & report any damage & shortage to Copperfit or its sales rep, before signing any Bill of Lading or other receiving receipt.
